Committed to Excellence
APEXINDO AT A GLANCE

CORPORATE
- The only Indonesian drilling contractor with offshore and onshore drilling capabilities.
- The Indonesian company with more than 35 years of drilling experience in both domestic and overseas markets in oil and gas, geothermal and coal bed methane drilling.
- Clients include some of the largest international and domestic energy companies, such as Pertamina Group, Petronas, Total E&P Indonesie, Chevron, VICO Indonesia, and Santos.
- High local content with 95% Indonesian out of 1,000 employees.

OPERATION
- Over twenty years of experience in operating jack-up rigs.
- Almost thirty years of experience in operating swamp barge rigs.
- Involved in the development of one of the largest gas fields in Indonesia - Makaham Block, East Kalimantan since 1992.
- Drilled over 2,000 onshore and offshore wells.
- Excellent safety and operations track records.

FLEET
- Offshore fleet consists of 2 jack-up rigs and 3 swamp barges.
- Onshore fleet consists of 6 onshore rigs of which five have at least 1,500 Horse Power.
- All rigs are well maintained through excellent maintenance systems.
“We are committed to deliver world class drilling services with the highest level of safety, health and environmental standards.”

Zainal Abidinsyah Siregar
President Director

“Applying the knowledge and finest experience in the oil and gas industry, Apexindo manages to always provide maximum values to all stakeholders.”

Irawan Sastrotanojo
President Commissioner
THE ONLY INDONESIAN DRILLING COMPANY THAT PROVIDES OFFSHORE AND ONSHORE DRILLING SERVICES TO EXPLORATION AND PRODUCTION MAJORS WITH UNCOMPROMISED COMMITMENT TO EXCELLENCE.

- PT Apexindo Pratama Duta Tbk (Apexindo/the Company) is an Indonesian drilling contractor providing both offshore and onshore drilling services to oil, conventional natural gas, coal bed methane and geothermal exploration and production companies. Established in 1984, Apexindo has consistently demonstrated high quality performance and commitment to excellence. Apexindo's uncompromising commitment to excellence has led to a longstanding and strong partnership with its clients, most of which are well known energy companies, such as Pertamina, Total E&P Indonesie, Chevron, VICO Indonesia, and Petronas.

- In 2002, Apexindo created history by becoming the first ever domestic drilling contractor to be listed on the Indonesian Stock Exchange with APEX as its ticker.

EXCEPTIONAL SAFETY RECORDS

Safety has always been a key priority for Apexindo since its inception, and Apexindo prides itself on setting and meeting the highest standards of Quality, Safety, Health and Environment (QSHE). As a result, the Company has managed to consistently record lower rate of Lost Time Incident, compared to other members of the International Association of Drilling Contractor (IADC) for Asia Pacific as shown on the chart below.

Apexindo believes that it is important to maintain a strong and positive safety culture in the workplace to create greater value for all stakeholders. That is why we have adopted the following initiatives:

1. **Empowerment** -- At Apexindo, we empower our employees to put a stop to unsafe practices through Stop Work Authority procedure regardless of their designation or seniority.

2. **Communication** -- Apexindo ensures that safety policies are communicated to its workers. Our safety policies are discussed every morning and are available electronically on the intranet.

3. **Training** -- Apexindo ensures that its employees are properly trained on workplace safety, and they have proper and up-to-date certifications. Our employees are aware of hazards and their responsibility in maintaining workplace safety.
STRONG TRACK RECORD IN OPERATIONS

- Apexindo is proud being one of the few companies understand the Indonesian drilling industry like Apexindo does. During its more than 35 years of experience, Apexindo has drilled thousands of wells in offshore and onshore segments across Indonesia, from Aceh to Papua.

- Apexindo also has extensive global drilling experience, with successful track record of drilling projects in locations such as Brunei Darussalam, Malaysia and the United States. Apexindo is globally recognized for its qualified services, thus Apexindo has managed to secure contracts with some of the biggest companies in the world such as Petronas in Malaysia and Total Abu Al-Bukhoosh in the Middle East.

- Apexindo is the pioneer in coal bed methane (CBM) and geothermal drilling in Indonesia.

- Apexindo has been drilling in Mahakam Block in East Kalimantan (one of the biggest gas fields in Indonesia) since 1992, and has cemented a long and solid footing in the block. This is a remarkable achievement as it meant that one of the world’s biggest oil companies - Total E&P Indonesie - trusted Apexindo’s services for more than 25 years. Even after Total E&P Indonesie’s operations were taken over by Pertamina Hulu Mahakam in 2018, Pertamina Hulu Mahakam opted to continue with Apexindo’s services, which is a testament to the quality provided by Apexindo.

- Apexindo has been awarded numerous recognitions by its clients. Some examples include: (a) an award from Pertamina Hulu Mahakam for Apexindo’s excellent performance on a high risk contract and for participation in a plastic waste reduction campaign; (b) an award from Pertamina Hulu Energi Abar for operating without any non-productive time; and (c) an award from Pertamina EP for successful implementation of the SHE management system.
WORLD CLASS DRILLING CONTRACTOR WITH HIGH LOCAL CONTENT

Apexindo is proud to be Indonesian. Besides being the only national drilling contractor with offshore and onshore drilling capabilities, 95% of Apexindo’s more than 1,000 workers is Indonesian.

Apexindo invests in its people. Through its human capital development program, Apexindo consistently maintains and enhances the competencies of its senior drilling crews, ensuring that they meet the certifications required by the International Association of Drilling Contractors and/or International Well Control Forum. Apexindo also provides continuous training to all employees to further nurture the culture of awareness and emphasis on safety, health and environment.

Apexindo values talent. A number of employees are sourced from the Apexindo Training Centre; an education and training facility designed for talented fresh graduates from local universities across Indonesia, creating qualified personnel in the oil and gas industry to support the Company’s development plans.
HIGHLY RELIABLE FLEET PROVIDES OPTIMAL OPERATIONS

Apexindo strives to ensure that the downtime on its operations is kept to the minimum. To achieve this, Apexindo adopts a stringent Preventive Maintenance Systems (PMS) program. The first part of this program involves the field maintenance personnel carrying out regular visual and physical inspections of Apexindo’s assets even when there are no reports of any faults. The second part of this program involves Apexindo engaging external parties to conduct a more comprehensive inspection and maintenance of the Apexindo’s assets.

Aside from a stringent maintenance program, Apexindo provides 24/7 support to its operations through various initiatives. For example, the Company operates warehouses with a total area of 12.4 hectares in strategic locations such as Bojonegara, Badak, and Handil. Each of these warehouses implements an efficient inventory system that provides better identification, maintenance, supervision, and control over the Company’s inventory of parts and supplies. This allows Apexindo to supply spare parts and equipment to the rigs on a timely basis. Additionally, to provide better support to its rig operations, the Company has a branch office in Balikpapan.
ENVIRONMENTAL PRESERVATION AND COMMUNITY EMPOWERMENT AS THE MAIN GOALS OF THE COMPANY’S CORPORATE SOCIAL RESPONSIBILITY

Local Empowerment -- Apexindo believes that the local communities are best placed to understand their own needs, and that is why Apexindo’s CSR efforts are primarily focused on the empowerment of local communities. Currently, the Company is carrying out a social mapping to create a well-targeted and sustainable program which can bring benefits to community.

Environmental Preservation -- Apexindo has planted and maintains 90,000 mangroves in Banten Bay, Serang, Banten, West Java since 2006. These efforts were recognized by the Mayor of Serang and Regency of Serang Banten in 2012 and 2014.

Free Healthcare -- The Company, in collaboration with local health center (Puskesmas), provided free medical treatment in Kampung Baketor and Solor Lor, Margagiri Village, Bojonegara, Banten to a total of 900 persons from different locations.

Educational and religious programs -- The Company built the school building of SDN 001 Saliki complete with library, computer laboratory, a musholla in Saliki village, Muara Badak, Kutai Kartanegara, East Kalimantan. Apexindo also participated in the renovation and painting volunteer program hosted by HappyHearts Indonesia in SKh Insan Mulia at Tangerang, Banten. Through these activities, Apexindo hopes to create future leaders with good and noble characteristics.
